FAMILY ENTERTAINMENT CENTERS / FUN CLIMBING

ENTERTAINMENT FOR WHOLE FAMILY!

"We have had 2 ValoClimb installations for total 8 months and our customers love them.

System has been really easy to operate and is one of our most popular attractions. We are already ordered a third system in a new location and more in the future"

- **Sami Suominen**,
Superpark - Activity Park, Finland

"Our customers' response to the wall has been incredibly positive. I hadn't expected it to be as popular as it is. The children love it but it is also attracting serious climbers to our centre. So, it is attracting groups and individual climbers that wouldn't necessarily have considered coming to the trampolining park.

It is really easy for children to use. All of the games are on a monitor for them to select and we have a member of staff on standby in case they need help."
